# About Us

## Mission & Vision

The Australasian Dental Group represents a vision that all practitioners can have a highly successful practice and pursue their excellence in dentistry without compromise.

Part of our vision is the mission to always exceed our partners' expectations.

The founders have created a group like no other, by offering a combination of solutions for your dental surgery. You may be looking for a partnership with the networking and support that we can offer or you may wish to get away from the day to day running of the surgery and free up your equity to enjoy life's finer things but not be locked into long contract's post sale.

Our Management team have years of skilled experience in the dental industry and know that every dentist has different needs and not every solution is based on fixed long term contracts that lock you in.

We have formulated a framework that will work with everyone's needs and still allows the surgery to have sustainable growth and security whilst taking the pressure off the practitioner.

## Core Values

In everything that we do, we all naturally follow a set of rules, a set of principles and values. At ADG, our every action, communication, action (remove as it is already written) and interaction are governed by the set of core values that we aspire to. This directs us along the path which is aligned to the vision that we have set for ourselves and our partners.

These values are not meant to be mere words that have good and positive meaning. They are the principles which will direct and guide our very own actions and behaviour. These very words will also help us make a difference in the health and care that we and our partners will provide for our customers.

## Professionalism

Act and carry out management and services with utmost efficiency and competence based on years of experience and ongoing training.

## Quality

The provision of an affordable service that is value for the customer's money without compromising the quality of work.

## Transparency

An assurance of partners' involvement in operations decision as well as customers' involvement and understanding in decisions regarding treatments and services.

## Responsibility

The duty and commitment for on-going professional training to always better ourselves for the benefit ultimately of our partners and customers by receiving the best possible services.

## Integrity

An assurance that we will always act and interact with principle, honesty and truthfulness.

## Innovation

Skills from years of training and experience will always be coupled with the advancement in modern dental technology reducing treatment time and increasing comfort.

## Care

Provision of the required attention, precaution and service with great regard to the patients' feelings and preferences. Patients will also receive the respect and kindness that they deserve.

## Empathy

Understanding, compassion and responsiveness to others including partners, staff, and customers.

## Team Work

Your comfort and health are important to us. You will experience service from people who are glad to support and assist you and committed to exceeding your expectations in the most efficient and professional way.

# Our Team

**Australasian Dental Group** was founded by a group of dentists who believe in clinical excellence and strive to deliver the best possible experiences for their patients. This is the core framework to maintain a highly successful practice.

This has been achieved through years of training and education and a network of support, which is what our team bring to each surgery in a form of a partnership. Not all surgeries are the same and neither is the way we treat our partners. Our team appreciates each of the surgeries for their strengths and success and understands that all practitioners are seeking different goals, which we will continue to respect to achieve growth.

Our team is filled and continuing to grow to be highly qualified with the latest skills and knowledge in all aspects of the dental industry. We have the resources to take your entire practice to the next level. As a fast growing dental company, we attract great discounts with suppliers which benefits well our owned clinics. With the different departments at the head office such as Administration, Accounting, Marketing, IT, and more, ADG will unburden your management load to help you focus more on your dental practice and your patients.

Our executive team are always available to meet with you and discuss what a partnership with ADG will do for yourself and for your practice. With flexible partnerships and post-sale contracts this might be what you have been waiting for.

# Our Management

Our head office team takes care of the back office functions such as operations, payroll, accounts payable, HR, and marketing. The practice manager takes care of on-site administration and delivery of information to head office with the support of the operations manager. The dentists deliver quality clinical services to our patients. The practice team together make the patient experience a brilliant one!

Your comfort and health are important to us. You will experience service from people who are glad to support and assist you and committed to exceeding your expectations in the most efficient and professional way.
